## EXPERIENCE

### Web Development Intern, Duck and Cover

San Pedro, Ca — March 2015 - June 2015

Duck and cover is a company that specializes in ecommerce, web development and design. As an intern my responsibility were to make amends to already developed web sites. In addition I also helped to developing multiple template themes.

#### Accomplishments

- Develop ecommerce websites at a fast pace
- Able to jump back and forth between projects
- Communicate with team members to accomplish projects in a timely manner

### IT Intern, Pacific Logistics Corp.

Pico Rivera, Ca — June 2014 - August 2014

As an IT intern I learned to write code for JavaScript, HTML, CSS, and PHP. My main project was to develop a load planning tool that calculated the amount of trucks needed to ship something based on its weight and dimensions

#### Accomplishments

- AJAX calls to gather information from the database and display it in the web browser
- Improved knowledge of jQuery AJAX in addition to HTML and CSS.

## EDUCATION

### California State University, Long Beach
